CASE 03 · ZEAL / ZFX · WEB TRADER

TRADING IN THE BROWSER

THE WHOLE TRADE IN ONE WINDOW

ZFX WEB TRADER: *MARKETS, CHART, DEAL TICKET AND POSITIONS, OPEN SIDE BY SIDE IN A BROWSER TAB.*

HOW A TRADING TERMINAL BECAME ***A WEB PAGE YOU CAN JUST OPEN****, TOLD ONE DECISION AT A TIME.*

SENIOR LEAD DESIGNER · ZEAL / ZFX · WEB AND MOBILE

TRADE IN A TAB

THE OLD WAY

*THE OLD MYZFX APP COULDN'T TRADE AT ALL. USERS WERE SENT TO **A SEPARATE MT4 TERMINAL** FOR THE ONE THING THEY CAME FOR.*

*ON A COMPUTER THAT MEANT **ANOTHER DOWNLOAD**, ANOTHER LOGIN, ANOTHER INTERFACE TO LEARN.*

THE DECISION

*A TRADING TERMINAL THAT OPENS **IN THE BROWSER**, ON THE SAME ACCOUNT AS THE APP.*

WHAT "MODERN" MEANT HERE

1 NO INSTALL

A LINK AND A LOGIN. ANY DESKTOP BROWSER.

2 ONE SCREEN

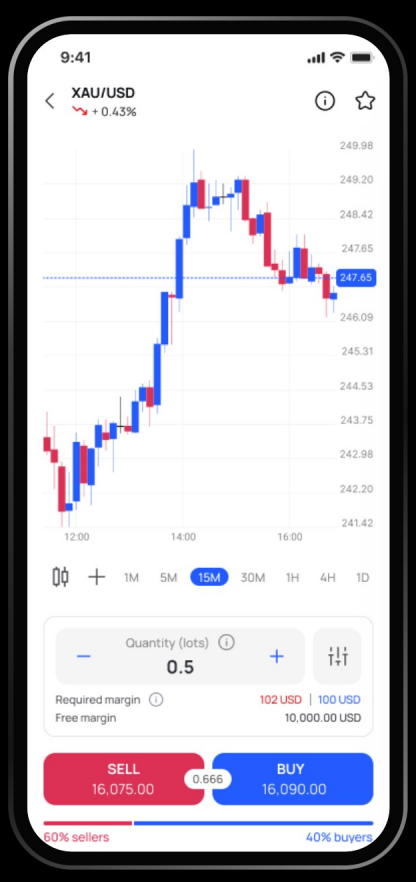

LIST, CHART, TICKET AND POSITIONS VISIBLE TOGETHER. NO SWITCHING TABS TO TRADE.

3 MONEY, NOT POINTS

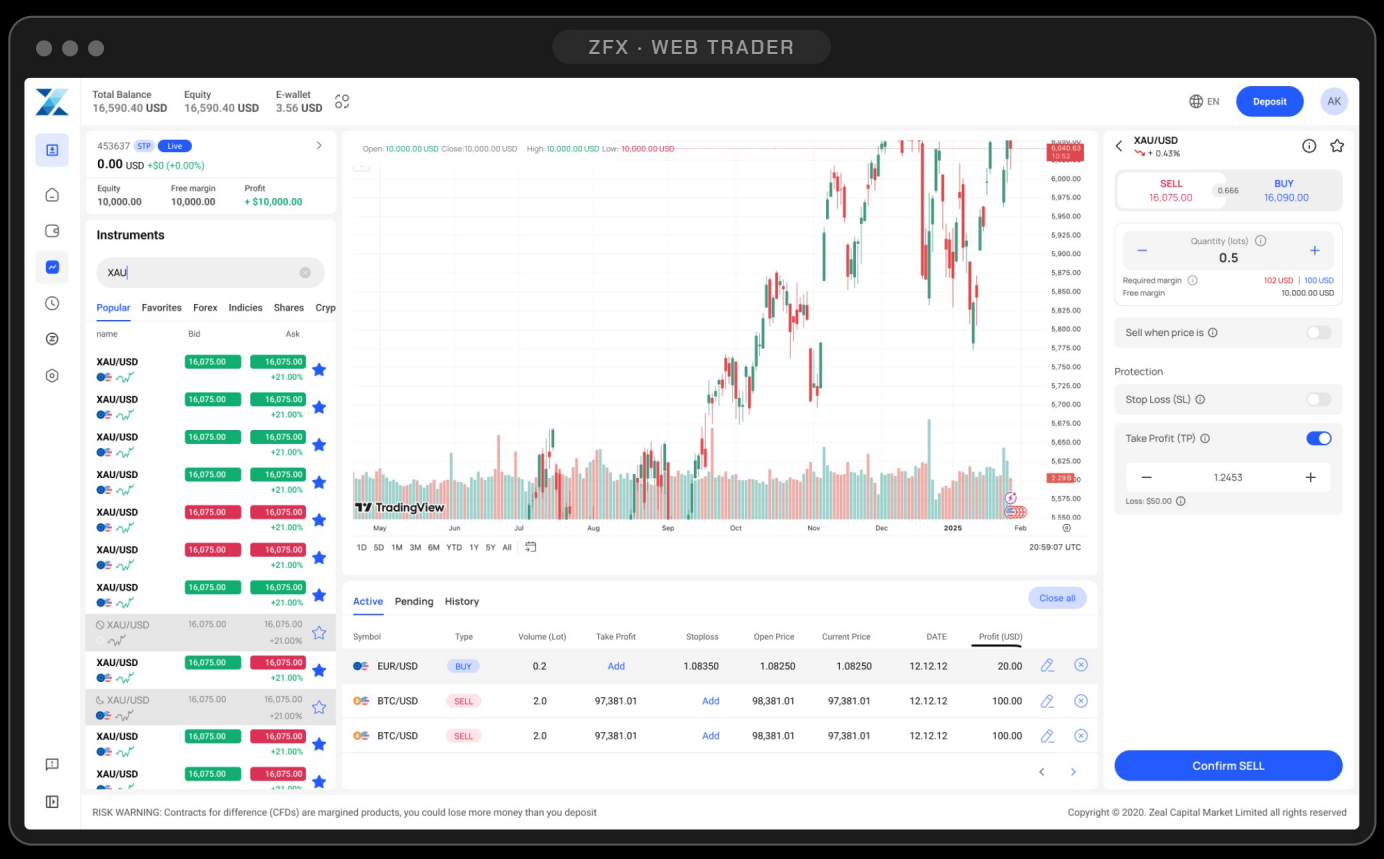

STOP LOSS, TAKE PROFIT AND CLOSING SHOW THE RESULT IN USD BEFORE YOU CONFIRM.

4 SAME RULES AS THE APP

ONE DESIGN SYSTEM. THE TICKET AND ITS STATES BEHAVE THE SAME ON PHONE AND WEB.

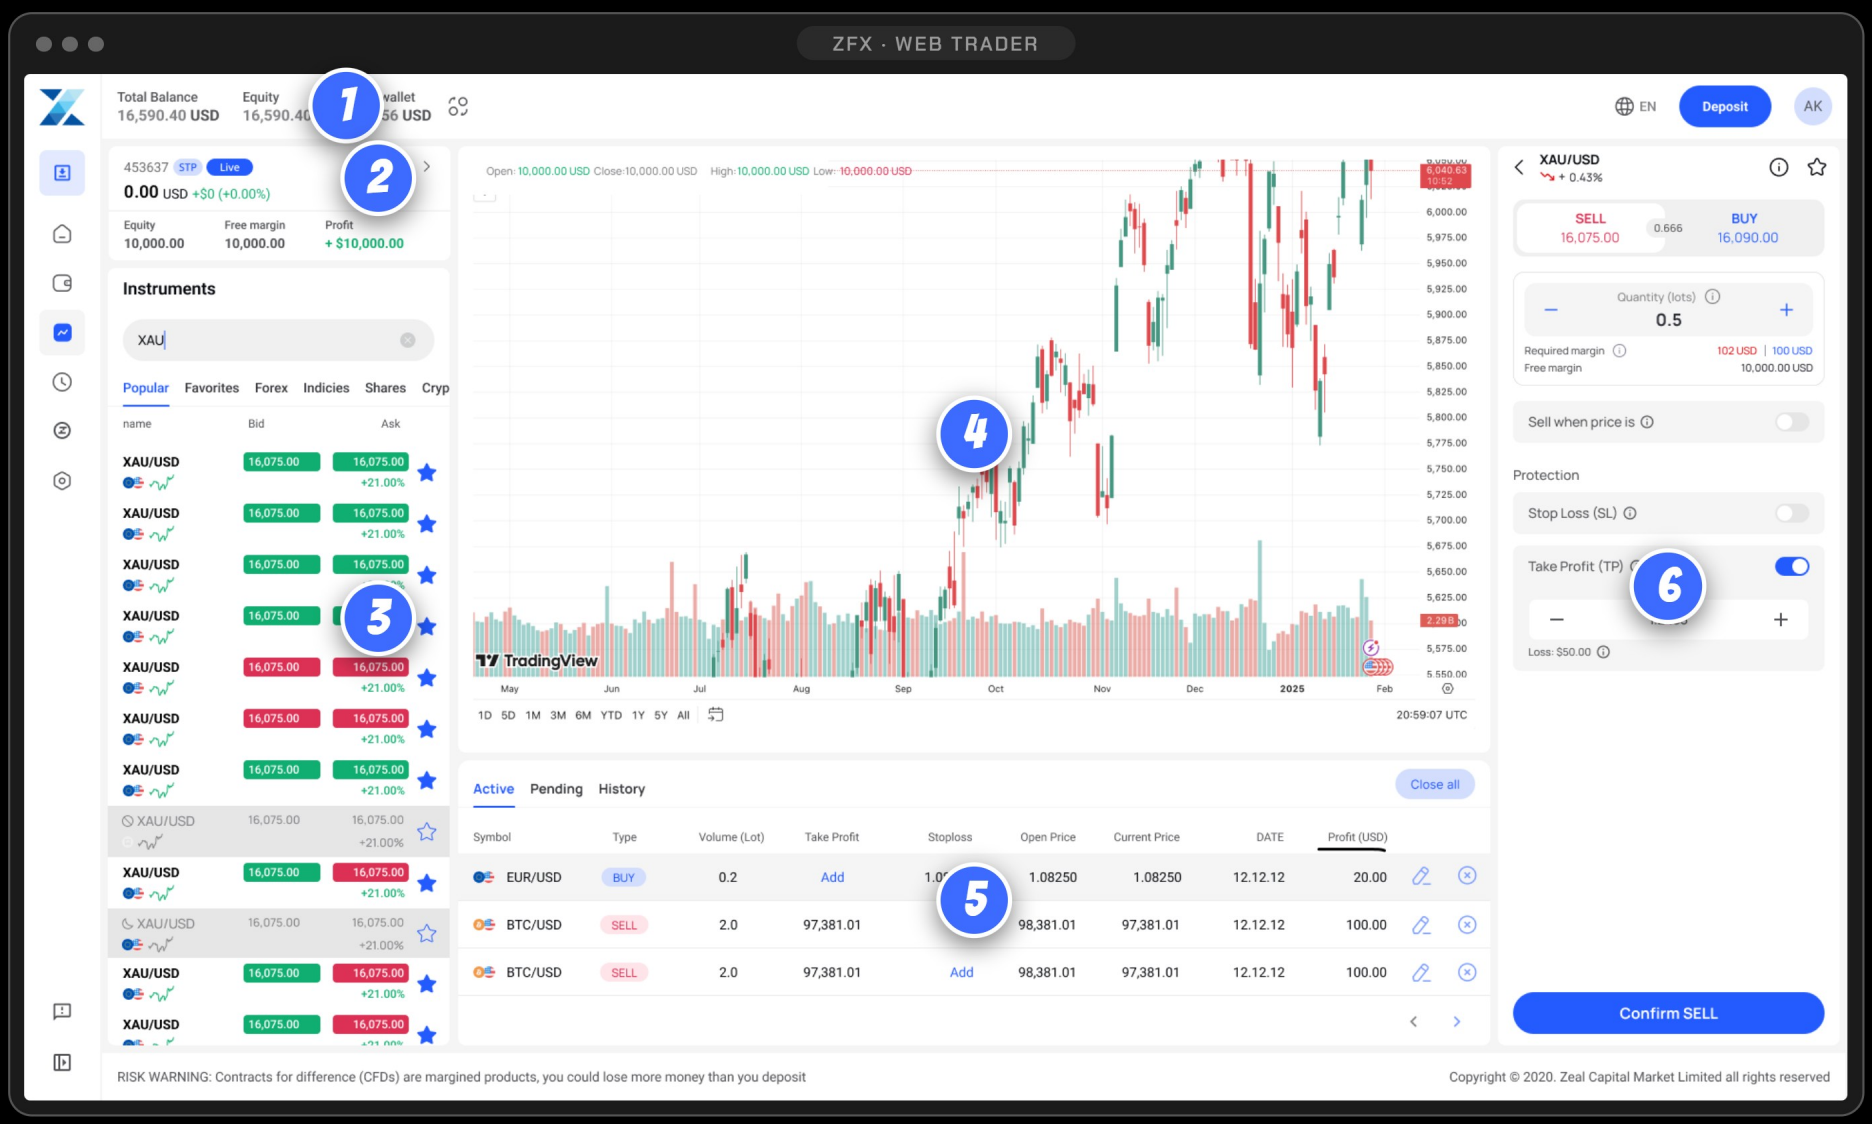

THE APP: ONE THING AT A TIME

THE WEB: EVERYTHING AT ONCE, SAME ACCOUNT

SIX ZONES, ONE GLANCE

1 TOP BAR

*TOTAL BALANCE, EQUITY AND E-WALLET. **DEPOSIT** IS ALWAYS ONE CLICK AWAY.*

2 ACCOUNT CARD

ACCOUNT NUMBER, STP AND LIVE BADGES, EQUITY, FREE MARGIN, PROFIT.

3 INSTRUMENTS

SEARCH, CATEGORY TABS, LIVE BID AND ASK, DAILY CHANGE, FAVOURITES.

4 CHART

TRADINGVIEW, WITH TIMEFRAMES FROM ONE DAY TO ALL-TIME.

5 POSITIONS

ACTIVE, PENDING, HISTORY. EDIT AND CLOSE ON EVERY ROW.

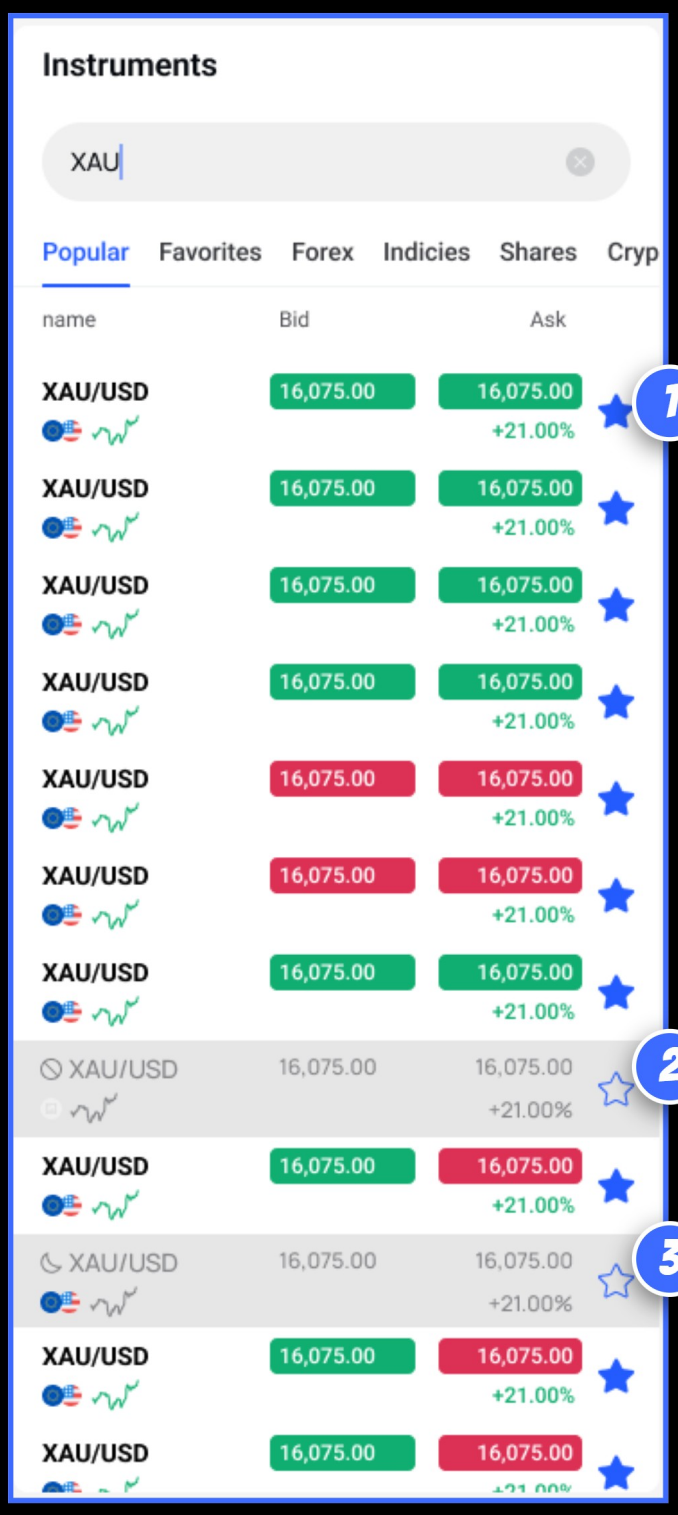

6 DEAL TICKET

*DOCKED ON THE RIGHT. **THE TRADE NEVER COVERS THE MARKET.***

*A TRADER SHOULDN'T **GO LOOKING** FOR ANYTHING. EVERY NUMBER HAS ONE HOME ON THIS SCREEN.*

THE LIST WARNS YOU FIRST

THE WATCHLIST

SEARCH ON TOP, THEN CATEGORY TABS: POPULAR, FAVORITES, FOREX, INDICES, SHARES, CRYPTO.

BID AND ASK SIDE BY SIDE, COLOURED BY DIRECTION, THE DAY'S CHANGE UNDER THEM.

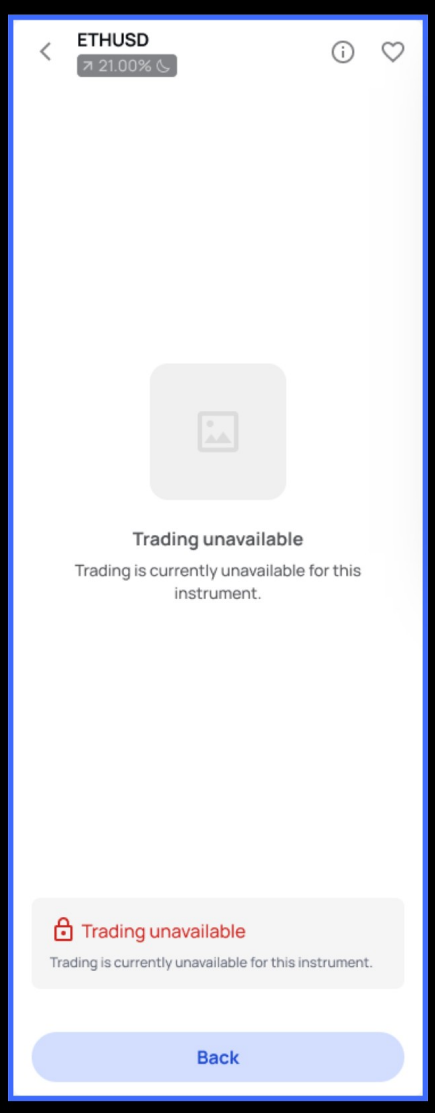

1 *A STAR PINS ANY INSTRUMENT TO **FAVORITES**.*

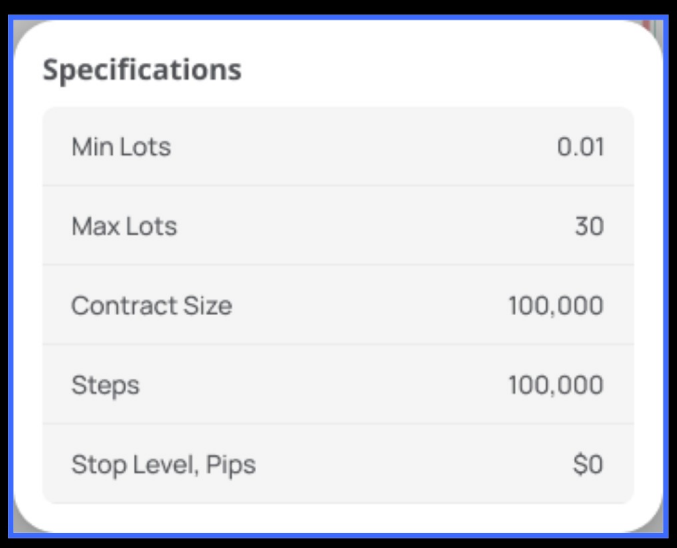

2 *A GREYED ROW WITH A CROSSED CIRCLE: TRADING IS **DISABLED** FOR THIS INSTRUMENT.*

3 *A GREYED ROW WITH A MOON: THE MARKET IS **CLOSED** RIGHT NOW.*

*YOU SEE IT **IN THE LIST, BEFORE YOU CLICK**. NOT AFTER YOU'VE TYPED A QUANTITY.*

AND IF YOU OPEN ONE ANYWAY

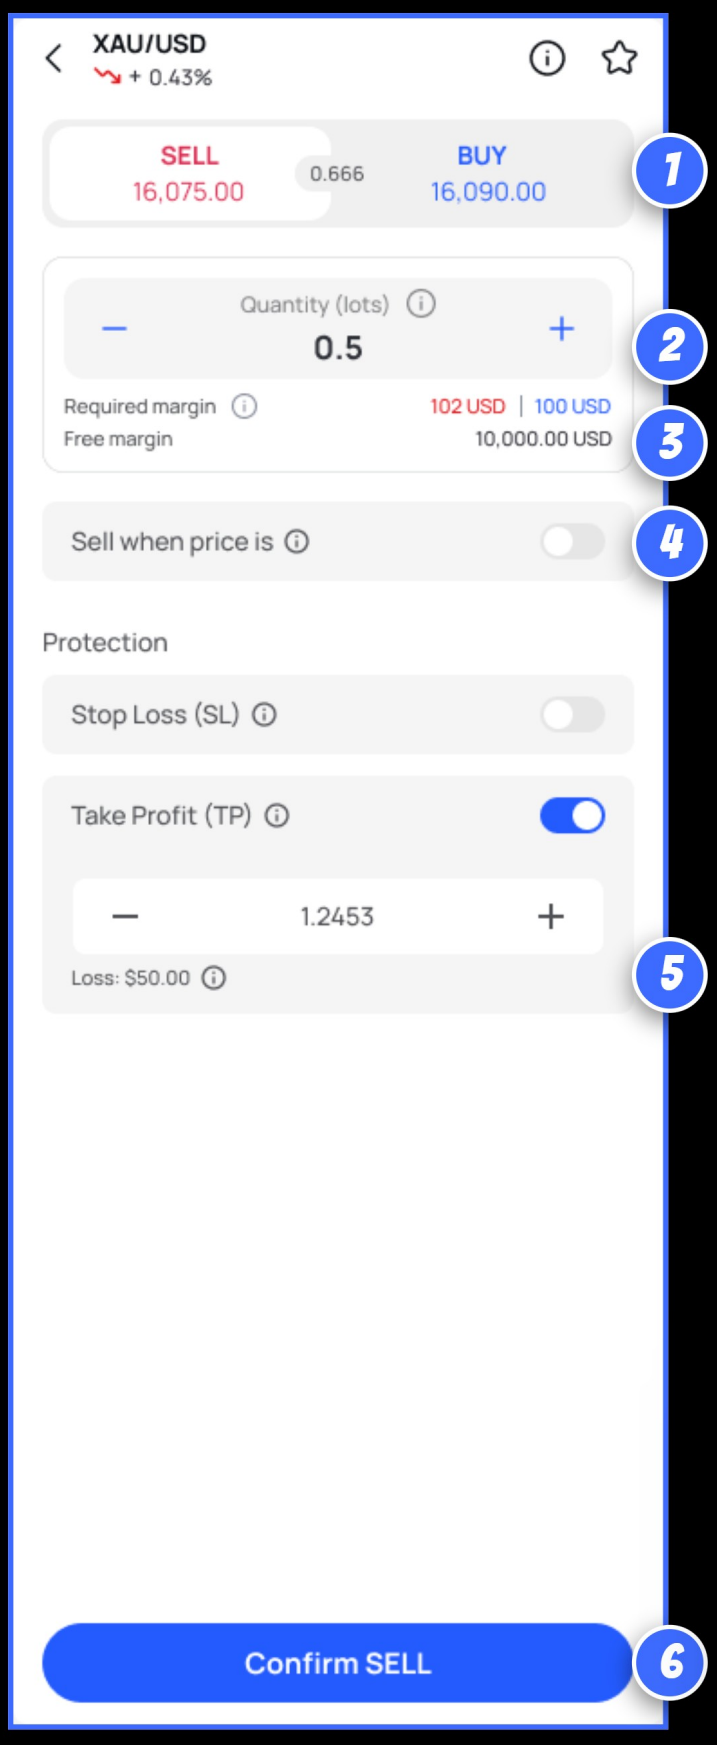

*THE INFO ICON OPENS THE INSTRUMENT'S **SPECIFICATIONS**: LOT LIMITS, CONTRACT SIZE, STOP LEVEL.*

*THE TICKET EXPLAINS ITSELF AND OFFERS **ONLY BACK**. NO FORM FOR A TRADE THAT CAN'T HAPPEN.*

*THE BEST ERROR MESSAGE IS THE ONE **YOU NEVER TRIGGER**.*

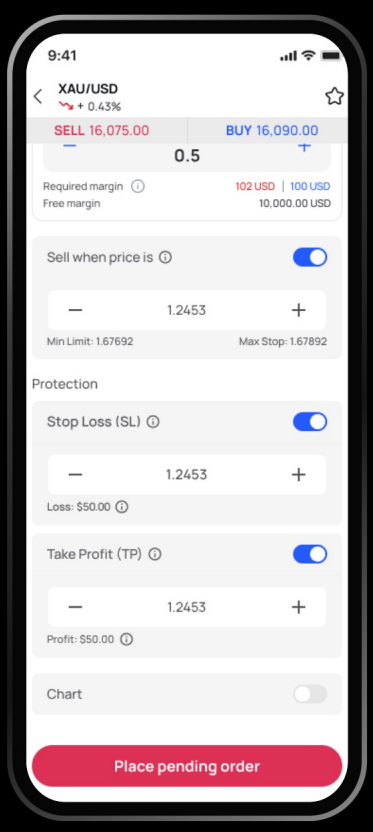

KNOW THE COST BEFORE YOU CLICK

THE DEAL TICKET, TOP TO BOTTOM

1. *SELL AND BUY PRICES SIDE BY SIDE, THE **SPREAD** BETWEEN THEM.*
2. *QUANTITY IN LOTS, WITH STEPS UP AND DOWN.*
3. ***REQUIRED MARGIN** NEXT TO FREE MARGIN, BEFORE ANYTHING IS SENT.*
4. *ONE TOGGLE TURNS IT INTO A PENDING ORDER (NEXT SCENE).*
5. *TAKE PROFIT AND STOP LOSS SHOW THE OUTCOME **IN MONEY**: "LOSS: $50.00".*
6. *THE BUTTON NAMES THE ACTION: **CONFIRM SELL**, NOT "SUBMIT".*

SAME RULE AS THE APP

*ON THE PHONE THE TICKET IS A FULL SCREEN. ON THE WEB IT'S A **DOCKED PANEL** NEXT TO THE CHART.*

*SAME FIELDS, SAME ORDER, SAME WORDS. A TRADER WHO KNOWS ONE **ALREADY KNOWS THE OTHER**.*

*NOBODY SHOULD LEARN WHAT A TRADE COSTS **AFTER** PLACING IT.*

WAIT FOR THE PRICE

THE PROBLEM

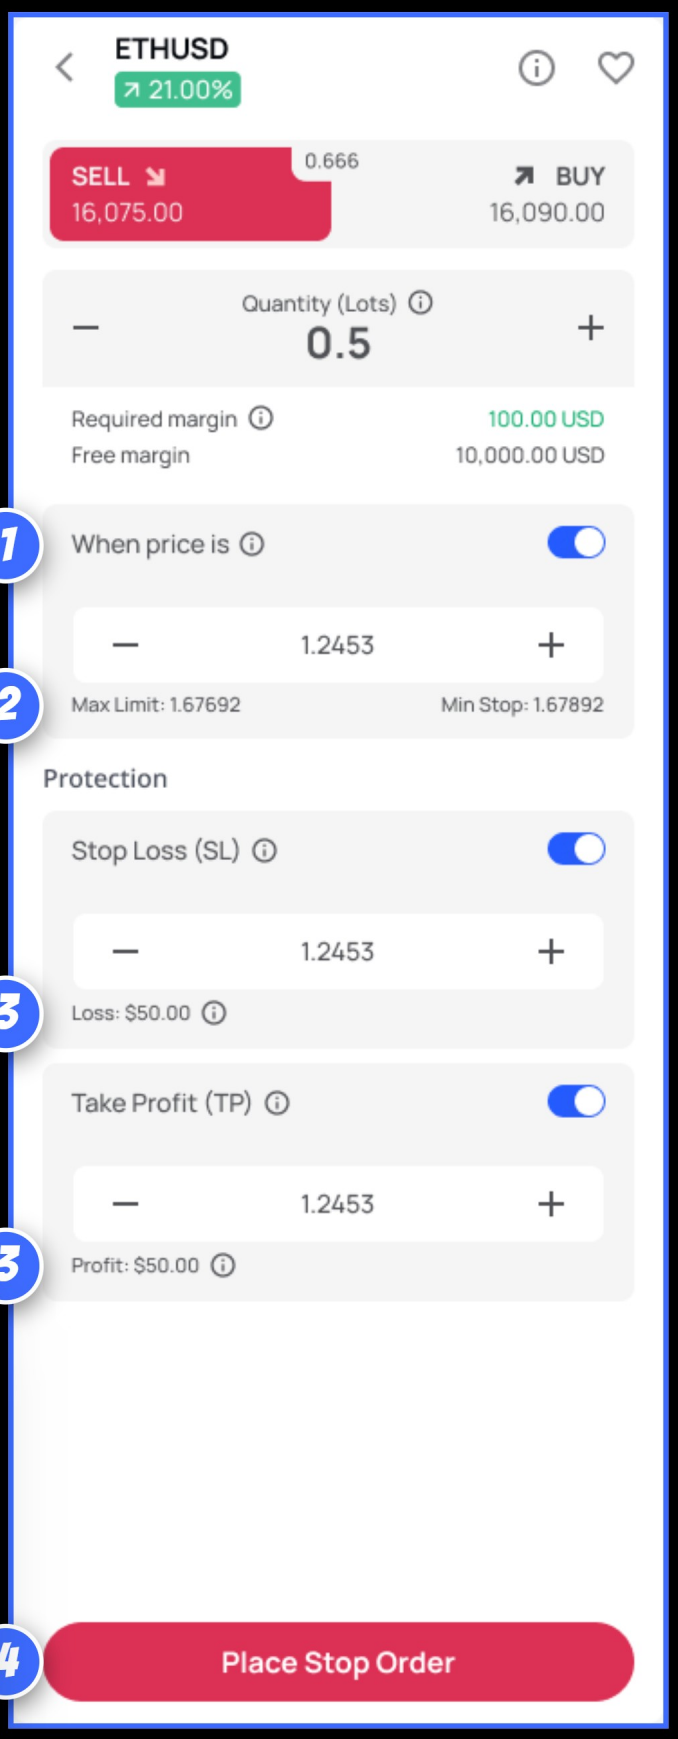

*A PENDING ORDER IS WHERE TYPOS GET EXPENSIVE: A LEVEL ON THE **WRONG SIDE** OF THE MARKET, OR TOO CLOSE TO IT.*

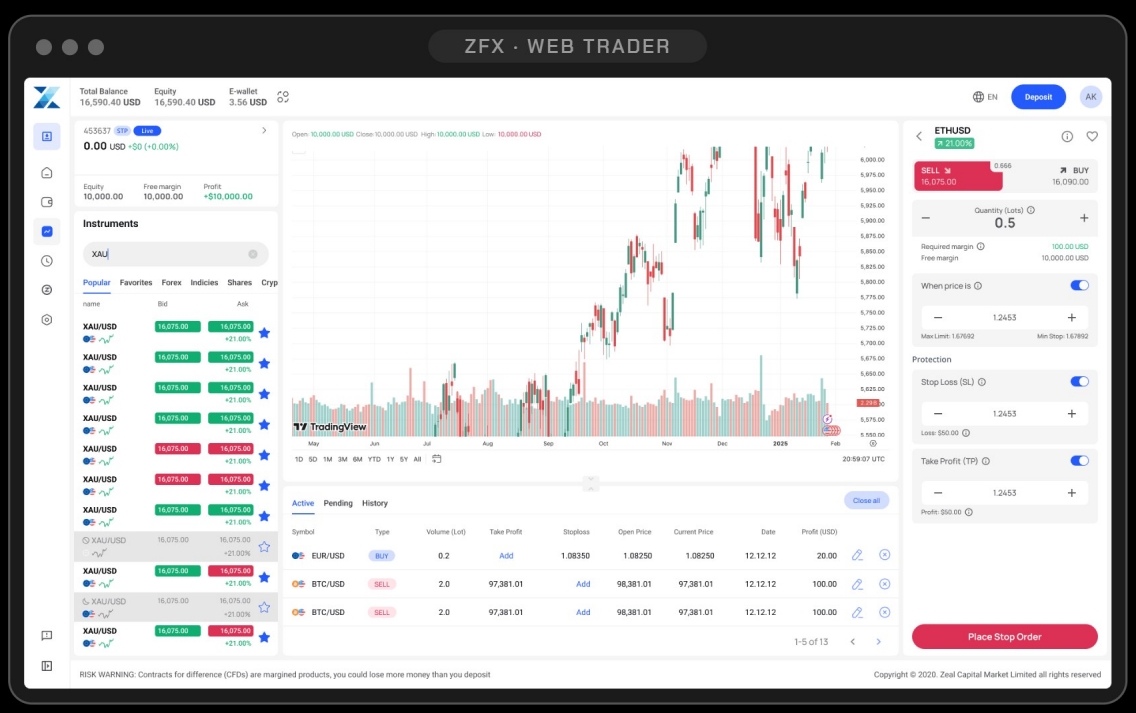

THE DECISION

*THE PENDING ORDER LIVES **INSIDE THE SAME TICKET**. ONE TOGGLE, "WHEN PRICE IS", NOT A SECOND FORM.*

HOW IT GUARDS THE TRADER

1. *SWITCH ON **WHEN PRICE IS** AND A PRICE FIELD OPENS IN PLACE.*
2. *UNDER IT: **MAX LIMIT** AND **MIN STOP**. THE VALID RANGE IS VISIBLE WHILE YOU TYPE.*
3. *STOP LOSS AND TAKE PROFIT EACH STATE THEIR OUTCOME: **LOSS: $50.00**, **PROFIT: $50.00**.*
4. *THE BUTTON FOLLOWS THE ORDER: **PLACE STOP ORDER**, IN THE COLOUR OF THE SIDE.*

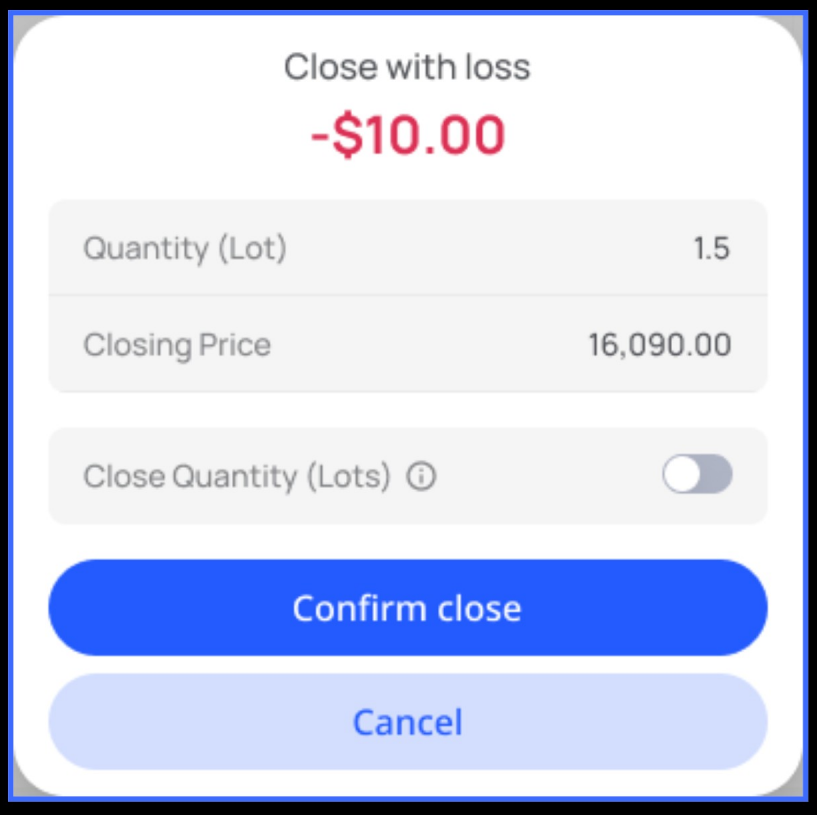

IN CONTEXT: THE CHART STAYS IN VIEW WHILE THE LEVEL IS SET

*ON A PHONE YOU FLIP BETWEEN CHART AND TICKET. HERE THE LEVEL IS CHOSEN **LOOKING AT THE CHART**.*

*GUARDRAILS BEAT WARNINGS. THE VALID RANGE SITS **ON THE FIELD**, NOT IN A POP-UP AFTERWARDS.*

CLOSING SAYS THE NUMBER

CLOSING A POSITION

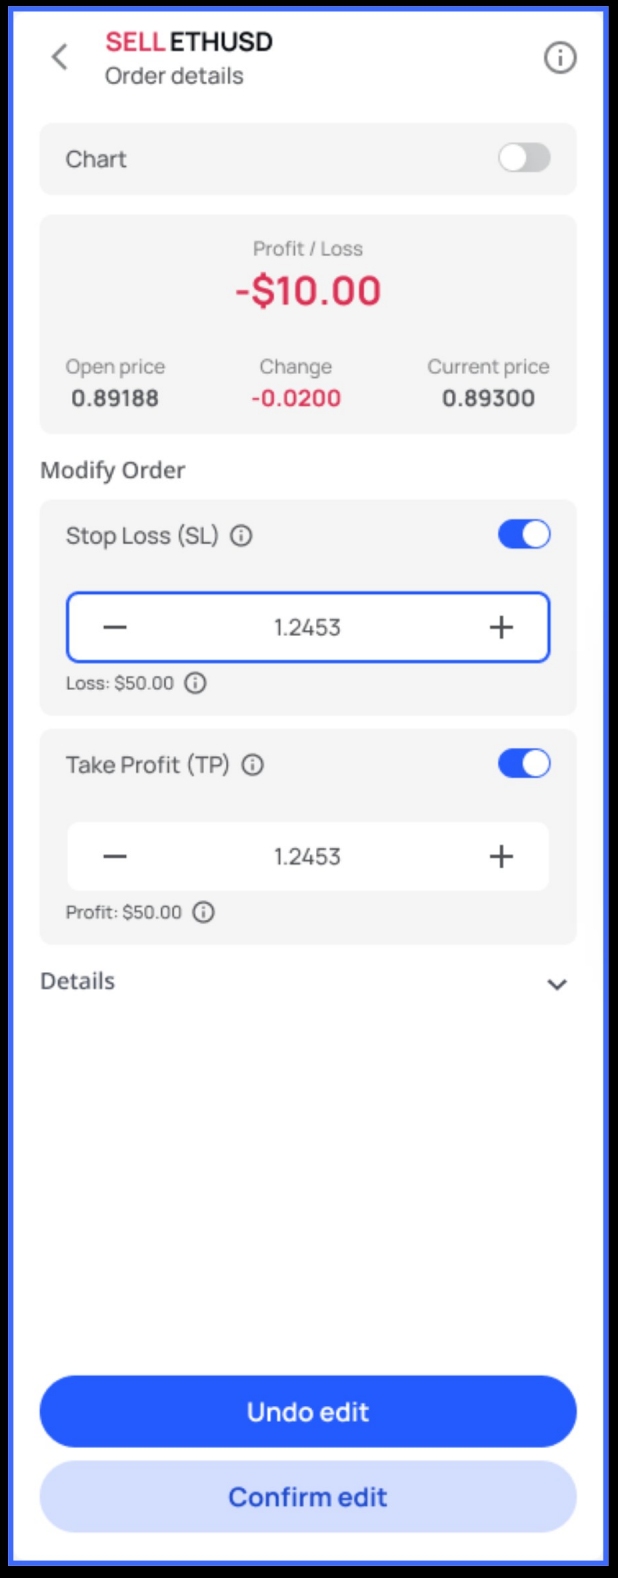

THE DIALOG LEADS WITH THE RESULT, IN RED: ***CLOSE WITH LOSS, -$10.00****.*

QUANTITY AND CLOSING PRICE SIT RIGHT UNDER IT.

A TOGGLE CLOSES ***PART*** *OF THE POSITION INSTEAD OF ALL OF IT.*

CONFIRM AND CANCEL AT FULL WIDTH, ONE UNDER THE OTHER. ***NO TINY "X" TO AIM FOR.***

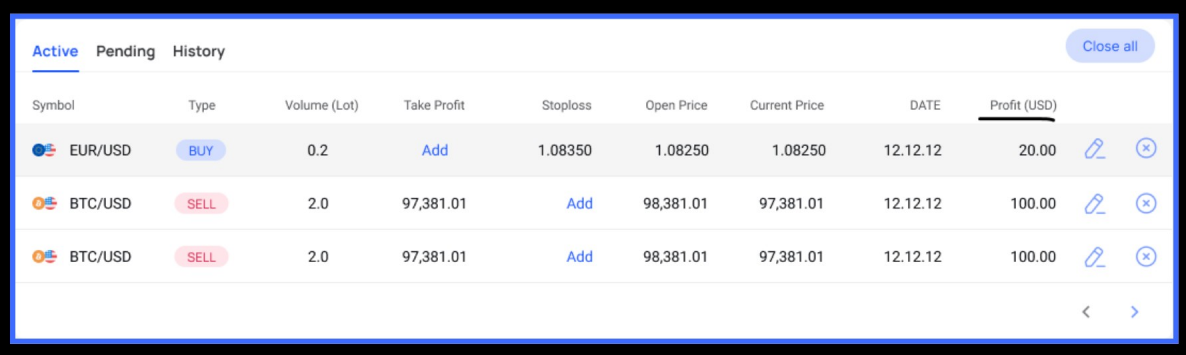

CHANGING A POSITION

ORDER DETAILS OPEN ***IN THE TICKET'S PLACE****: PROFIT OR LOSS ON TOP, THEN OPEN, CHANGE AND CURRENT PRICE.*

STOP LOSS AND TAKE PROFIT CAN BE ADDED ***AFTER*** *THE TRADE, AND AGAIN THEY SHOW THE MONEY.*

CHANGES CAN BE TAKEN BACK: ***UNDO EDIT*** *SITS ABOVE CONFIRM EDIT.*

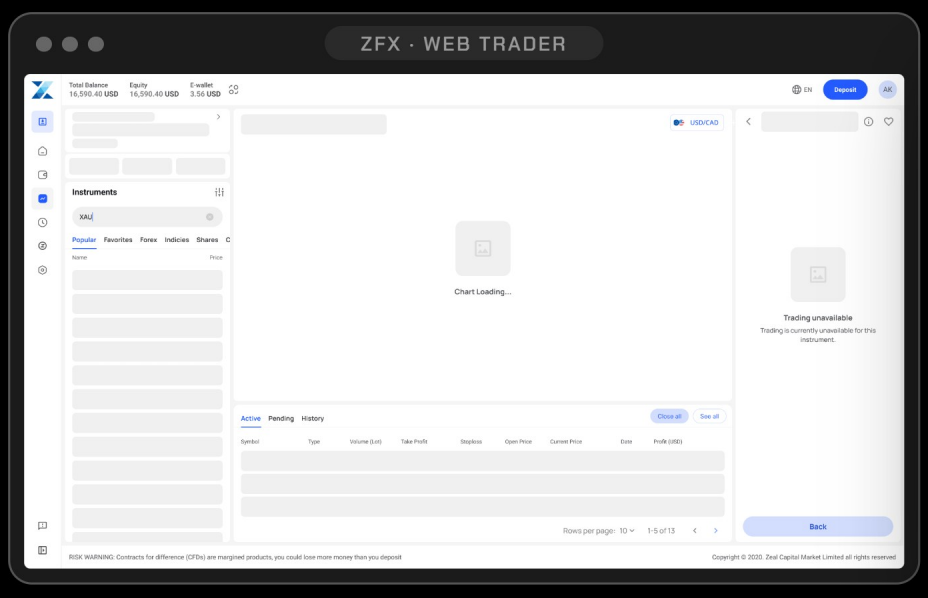

IN THE TABLE EVERY ROW CARRIES EDIT AND CLOSE, AND AN ***ADD*** *LINK WHERE A TAKE PROFIT IS STILL MISSING.*

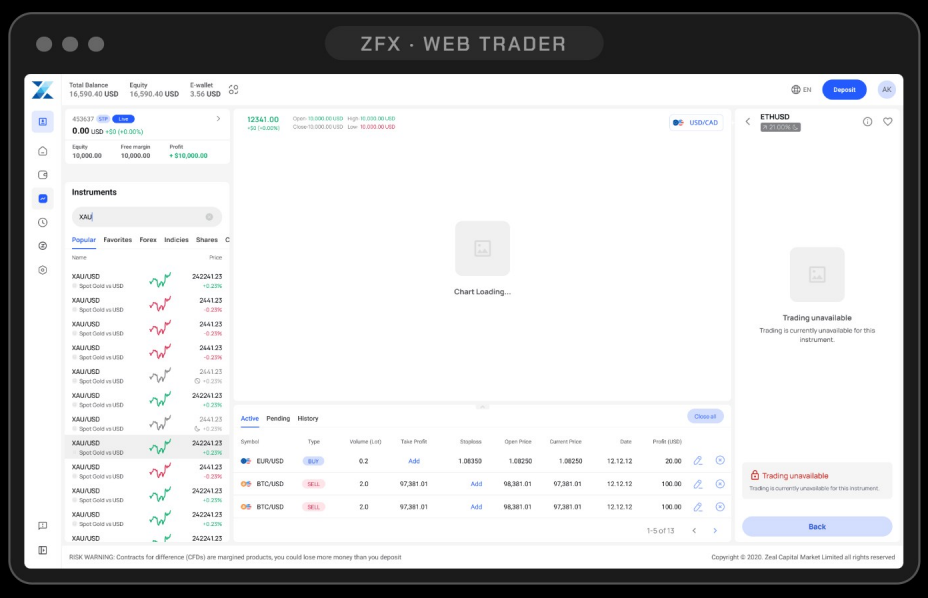

A LOSS IS NEVER A SURPRISE HERE.
IT'S A SENTENCE.

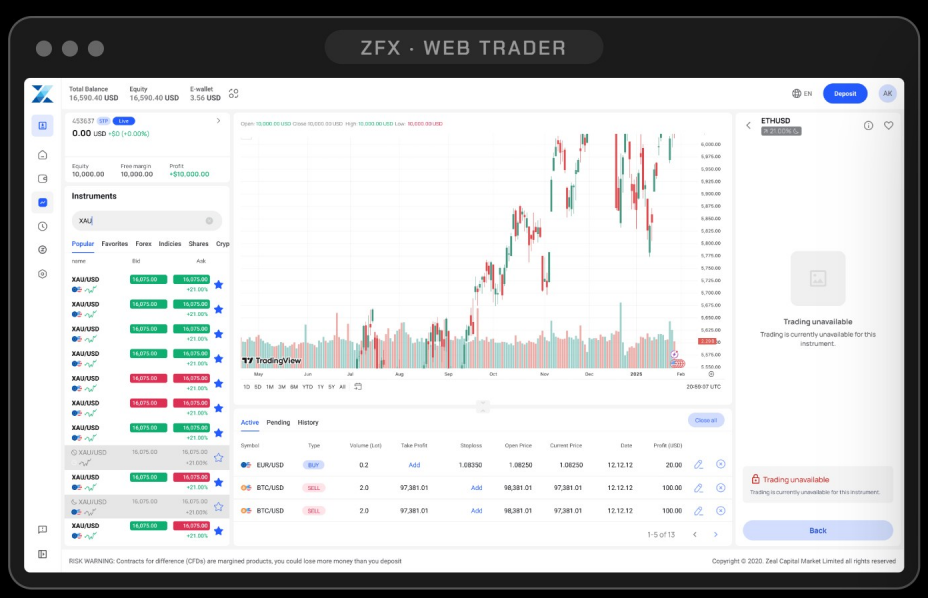

NO BLANK SCREENS

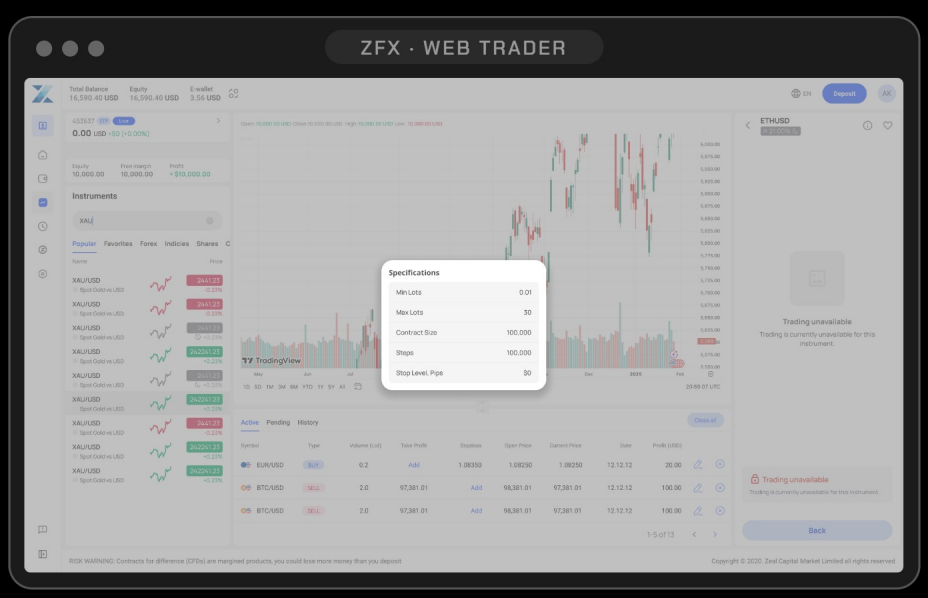

1 *FIRST VISIT: SKELETON ROWS IN THE REAL SHAPE*

2 *CHART LOADING, EVERYTHING ELSE ALREADY LIVE*

3 *INSTRUMENT CAN'T BE TRADED: SAID IN THE TICKET*

4 *INSTRUMENT RULES, ONE CLICK AWAY*

DESIGNED, NOT LEFT TO CHANCE

*EVERY PANEL LOADS ON ITS OWN. THE CHART SAYS **CHART LOADING...** WHILE THE LIST AND POSITIONS ALREADY WORK.*

*ON A FIRST VISIT, LISTS AND TABLES SHOW **SKELETON ROWS** IN THE SHAPE OF THE REAL CONTENT.*

*A CLOSED OR DISABLED INSTRUMENT SWAPS THE TICKET FOR **TRADING UNAVAILABLE** AND A SINGLE BACK.*

*EACH STATE IS ITS OWN FRAME IN THE FIGMA FILE, MARKED **READY FOR DEV**. NOTHING LEFT FOR A DEVELOPER TO IMAGINE.*

*AN EMPTY WHITE BOX LOOKS LIKE **A BROKEN APP**. A SKELETON LOOKS LIKE ONE ON ITS WAY.*

AN ERROR YOU CAN REPORT

SYSTEM NOTICE

ZDS distribution delay is now resolved. **Read more**

*KNOWN ISSUES AND THEIR FIXES APPEAR AS A **DISMISSIBLE STRIP** ABOVE THE WORKSPACE. TRADING IS NEVER BLOCKED BY A POP-UP.*

ERRORS

Sorry, our system just had an error

Error ID: 123124

The offer is valid until 30 August. You can apply for a money in the application, without references and visits to the ZFX.

Hide details

The offer is valid until 30 August. You can apply for a money in the application, without references and visits to the ZFX.

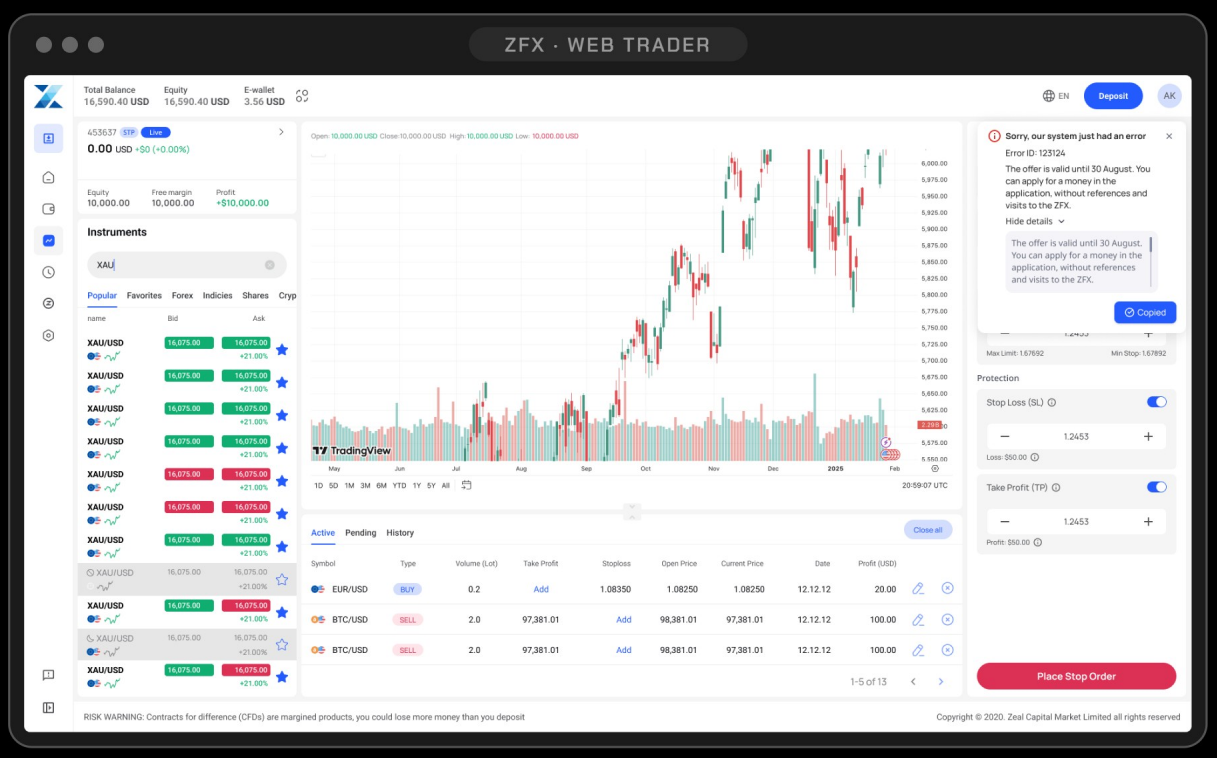

Copied

*THE ERROR APPEARS **WHERE IT HAPPENED**, OVER THE TICKET, NOT AS A FULL-PAGE CRASH.*

*IT CARRIES AN **ERROR ID** AND A COPY BUTTON THAT ANSWERS BACK: "COPIED".*

*THE TECHNICAL DETAILS FOLD AWAY UNDER **HIDE DETAILS**.*

*SUPPORT GETS AN ID, **NOT A SCREENSHOT AND A GUESS**.*

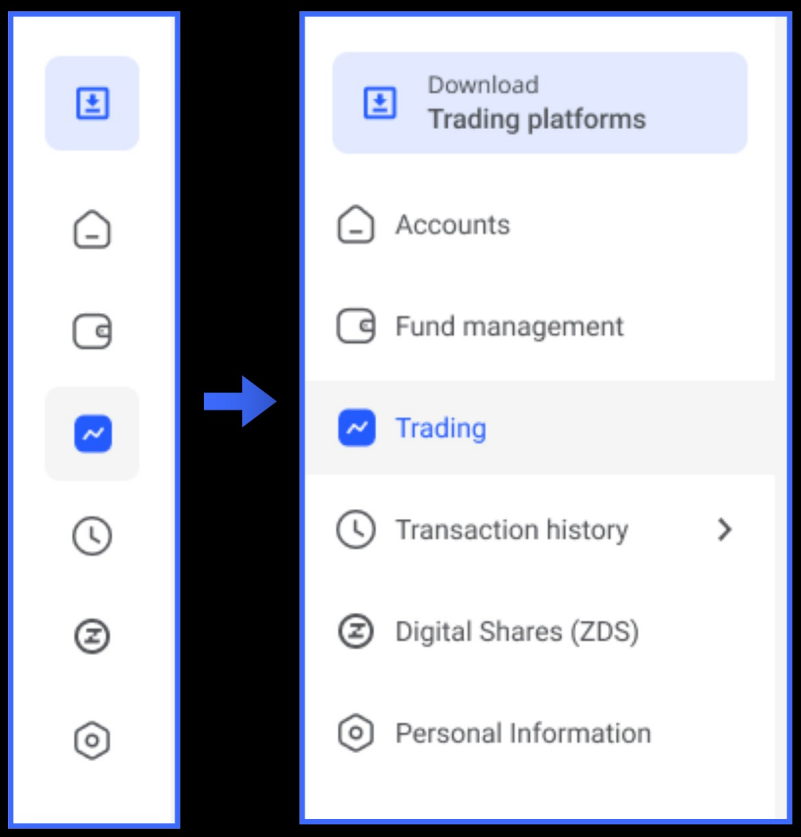

IN CONTEXT: THE CHART, THE LIST AND THE POSITIONS KEEP WORKING

"SOMETHING WENT WRONG" HELPS NOBODY.
***ERROR 123124** HELPS SUPPORT.*

MENU AND MEMORY

NAVIGATION

RAIL *OPENED*

*A SLIM ICON RAIL KEEPS THE **TRADING SPACE WIDE**.*

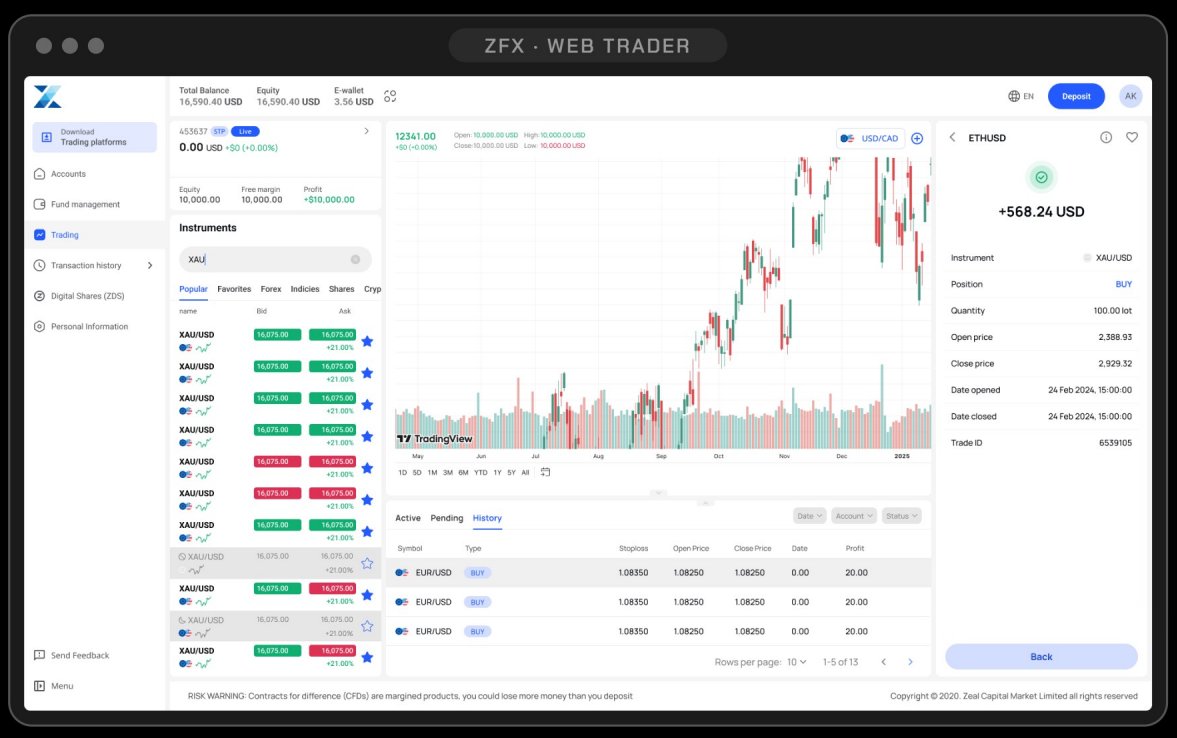

MENU OPENS IT INTO WORDS: ACCOUNTS, FUND MANAGEMENT, TRADING, TRANSACTION HISTORY, DIGITAL SHARES, PERSONAL INFORMATION.

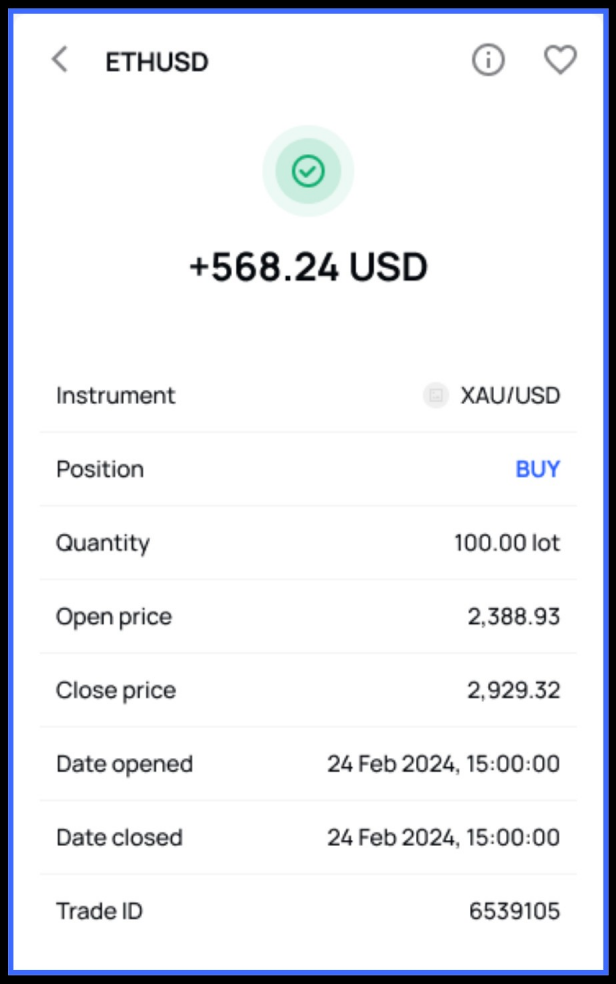

*SEND FEEDBACK LIVES AT THE BOTTOM, **ALWAYS REACHABLE**.*

HISTORY

*THE HISTORY TAB FILTERS BY **DATE, ACCOUNT AND STATUS**.*

*A CLOSED TRADE OPENS AS A **RECEIPT**: THE RESULT FIRST, +568.24 USD, THEN INSTRUMENT, SIDE, QUANTITY, PRICES, DATES AND TRADE ID.*

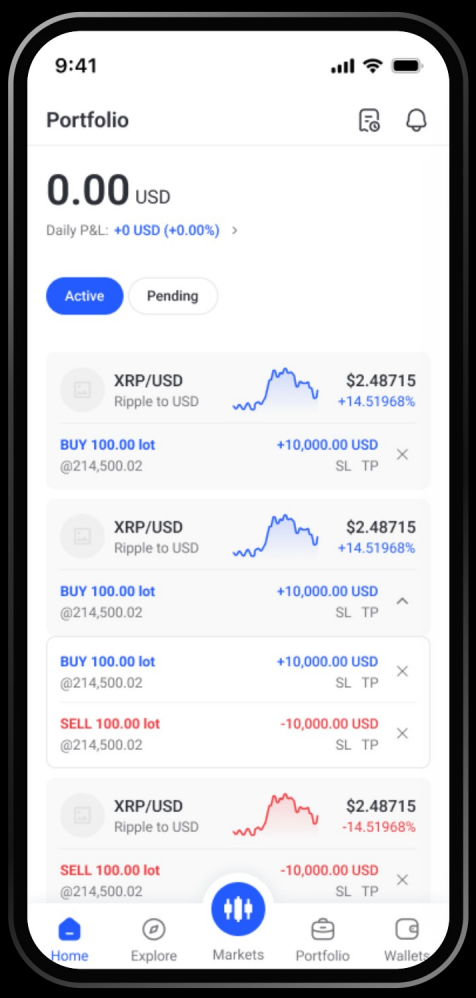

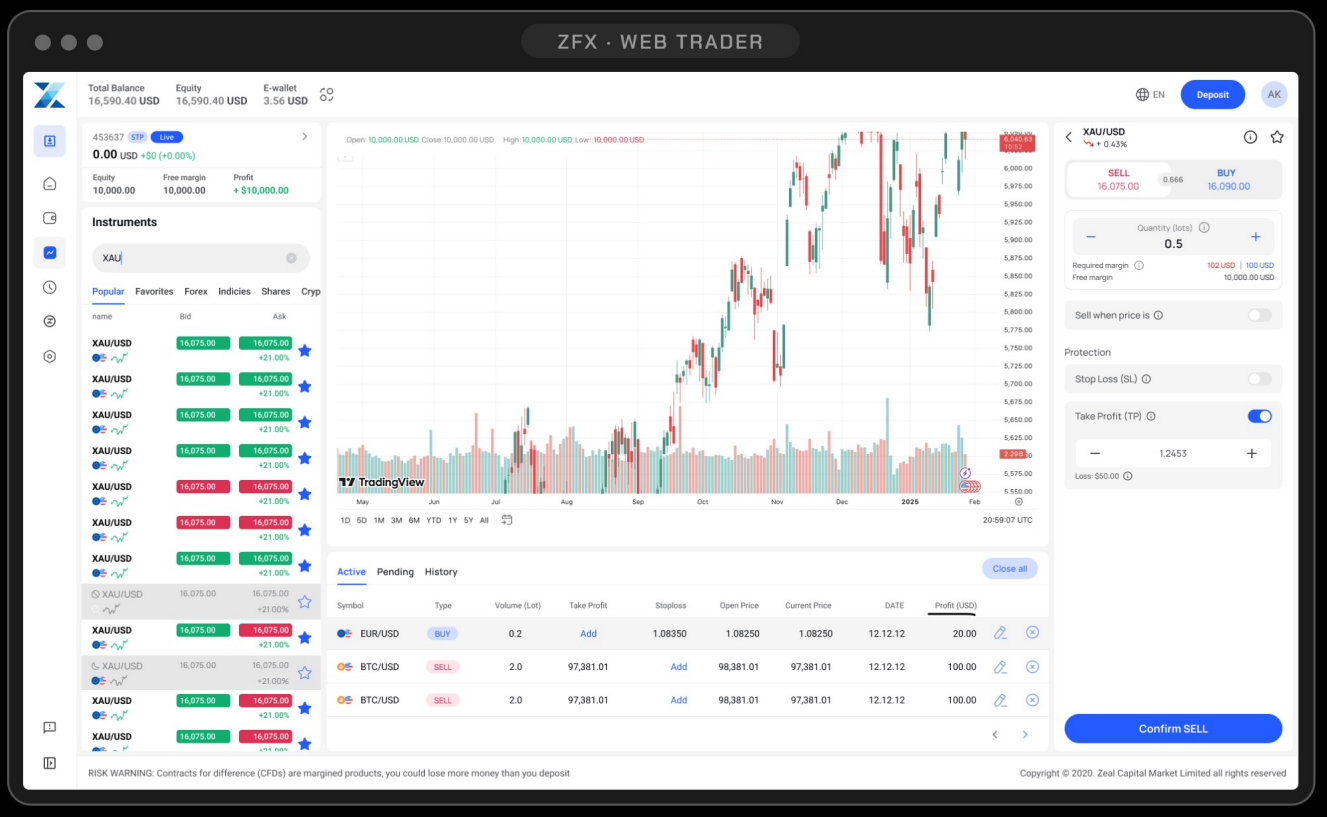

*EVERY CLOSED TRADE ANSWERS **WHAT, WHEN AND HOW MUCH**.*

ONE SYSTEM, TWO SCREENS

IN THE POCKET

AT THE DESK

WHAT THE PHONE AND THE WEB SHARE

- ✓ *ONE **DEAL TICKET** LOGIC: SIDE, QUANTITY, MARGIN, PROTECTION.*
- ✓ *STOP LOSS, TAKE PROFIT AND CLOSING SHOWN **IN MONEY**.*
- ✓ *THE SAME STATES: LOADING, CLOSED MARKET, UNAVAILABLE, ERROR.*
- ✓ *THE SAME COLOURS, TYPE AND COMPONENTS FROM THE **ZEAL DESIGN SYSTEM**.*
- ✓ *THE SAME ACCOUNT, BALANCE AND POSITIONS.*
- ✓ *EVERY SCENARIO SPECIFIED AS A FRAME, **READY FOR DEV**.*

*PHONE OR BROWSER: **ONE PRODUCT**. ONLY THE AMOUNT OF SCREEN CHANGES.*

*SAME TRADE, **MORE ROOM**. THAT'S THE WHOLE IDEA OF THE WEB TRADER.*
